

4 MORE WAYS

To Get the Most Fuel Efficiency
Out of the All-New Volvo VNL

The all-new Volvo VNL is designed with efficiency at its core. Here's how to unlock its fuel-saving potential.

TIP #4 Utilize Volvo's Predictive Cruise Control

- Engage predictive cruise control on hilly routes to let the truck manage acceleration and braking more efficiently than a human can.
- Combine with I-Roll, which disengages the engine when coasting is most efficient.

TIP #6 Use Remote Diagnostics and Volvo Connect

- Monitor fuel reports to identify inefficiencies.
- Use driver coaching tools to improve habits across your fleet.
- Schedule preventative maintenance to keep the engine and systems running at peak performance.

TIP #5 Adopt Fuel-Efficient Driving Habits

- Even with advanced technology, driver behavior still plays a big role in fuel efficiency.
- Maintain a steady speed whenever possible.
 - Anticipate traffic flow to avoid unnecessary braking and acceleration.
 - Limit idle time — Volvo's idle management system can help track and reduce it.

TIP #7 Keep Tires Properly Inflated and Aligned

- Use automatic tire inflation systems when available.
- Check tire pressure weekly and align axles regularly to reduce rolling resistance.

READY TO DRIVE EFFICIENCY HOME?

2025 VOLVO VNL64T860

\$183,000

PROGRESS UPDATE:

NEW DEALERSHIP COMING SOON

We're excited to share the latest progress on our new Young Freightliner/Isuzu dealership and parts distribution center in Canton, OH. This major project reflects our ongoing commitment to delivering a better and more efficient experience for our customers. Located on 28 acres just off I-77, the 65,000-square-foot building is taking shape rapidly and is on track for a spring/summer 2026 opening.

From the ground up, the facility is being designed with the needs of commercial drivers and fleet operators in mind. Thoughtfully planned layouts and traffic flow—both inside and outside the building—will support easier navigation for heavy-duty trucks, reduce wait times, and improve overall efficiency. We're also investing in state-of-the-art equipment and advanced technology to streamline service, parts access, and communication—ensuring a faster, more reliable customer experience.

We'll continue to keep you updated as we move closer to opening day. Thank you for your continued support—we can't wait to welcome you to the new facility!

RULES OF THE ROAD

To stay true to our purpose, we follow a set of guiding principles we call the Rules of the Road — a system for how we show up, serve others, and stand out.

#3 LISTEN BEFORE YOU SPEAK

Taking the time to hear what others have to say is the sincerest form of respect and the first step towards success.

Visit a **Young Trucks location** for sales, leasing, fleet maintenance, finance, parts, service, body shop, trailer, and more specialized services to keep you moving.

GET TO KNOW OUR TEAM

MEET JUSTIN CANDEA,
VICE PRESIDENT OF TRUCK SALES AND OWNER AT YOUNG TRUCKS

Driving Growth, Relationships, and the Future of Trucking

In this month's spotlight, we sit down with Justin Candea to talk about what drives him, what's ahead for our customers, and how Young Trucks continues to raise the bar in commercial truck sales.

Q: Justin, you've been with Young Trucks for over a decade. What keeps you motivated in this industry?

Justin: It's the people—our customers, our team, and our partners. Every day brings new challenges and opportunities, and I enjoy helping customers find the right truck for their business. I've always loved working with fleet managers and small businesses to understand their needs and deliver real value.

Q: What makes Young Trucks stand out when it comes to truck sales?

Justin: We take a long-term approach. Our goal isn't to just sell a truck—it's to build a relationship. We want to be the first call our customers make, whether they're expanding their fleet, spec'ing out a new unit, or looking for support after the sale. We're proud to represent Freightliner, Isuzu, and Volvo, and bring a consultative approach to every sale.

Q: What's something about you that people might be surprised to learn?

Justin: I was born and raised right here in the Canton area, and I'm proud to still call it home. Outside of work, I stay active – regularly working out and competing in fitness events. Staying physically challenged keeps me focused and energized. I'm also a family guy. Raising my two kids is my greatest joy, and balancing family life with my role at Young Trucks keeps everything in perspective.

Q: Any message you'd like to share with customers reading this content?

Justin: Just a thank you—for trusting us, for your business, and for being part of the Young Trucks family. We don't take it for granted. Whether you've been with us for years or you're just getting started, we're here to help you keep moving forward.

Looking ahead to your next truck? Justin and the sales team are ready to help—today and at our new location in 2026.

WE'VE UPGRADED TO SERVE YOU BETTER

Young Trucks has transitioned to a new dealer management system to better serve our customers. While there may be a brief adjustment period, this upgrade brings meaningful improvements to your experience.

Thank you for your patience as we make this transition. We're excited to bring you the benefits of this powerful new system.
