

HELPING THOSE WHO HELP OUR COMMUNITIES – WITH EXCLUSIVE PARTS SAVINGS

At Young Trucks, we believe the strongest communities are built by people who show up every day—teachers, first responders, school transportation teams, public works departments, and all those who keep our towns and cities running safely and efficiently. To honor that commitment, we're proud to introduce Special Parts Pricing for Municipalities & Schools Parts Advantage, a dedicated program designed to give back to the organizations that give so much.

WHY WE CREATED THIS PROGRAM

Municipalities and school districts depend on reliable vehicles to keep students safe, maintain infrastructure, perform essential services, and respond to community needs. We know the pressure these organizations face: tight budgets, aging equipment, and the constant need to keep fleets in service with minimal downtime.

This program reflects our core belief: **We want to help people who help people.**

By offering specialized Parts pricing, we aim to strengthen the backbone of our communities—those who work tirelessly behind the scenes to keep everything moving.

PUT OTHERS FIRST.

Our greatest purpose in life is to care – to help others, to be kind and considerate.

WHO QUALIFIES?

- Municipal governments
- School districts
- Fire & EMS departments
- Transit and county fleets
- Public works divisions
- Other government-funded service organizations

If your team works to serve the public, this program was built with you in mind.

GET CONNECTED & GET ENROLLED

Contact your Young Trucks Parts Representative today to learn more and enroll in the program.

SAME PRICE AS LOWER-SPEC VNL860s

More Power, More Options, Better Value

\$176,850

2026 VOLVO VNL 64T860

While there are a few VNL860s advertised at similar prices, most sacrifice horsepower, premium finishes, or exclude FET to get there. This 2026 Volvo VNL860 stands apart with higher power, painted fairings, premium factory options, and ultra-low miles — delivering more truck for the money at a price typically reserved for lower-spec units.

GET TO KNOW OUR TEAM

MEET APRIL MANN,

Dispatch Supervisor - Young Trucks

Since joining the team in May 2024, April has brought decades of logistics experience to the Parts Department, helping streamline deliveries, support drivers, and improve communication with customers. In this Q&A, April shares more about her role, her background, and what motivates her to keep parts—and people—moving every day.

Q: When did you join Young Trucks, and what is your role today?

April: I joined Young Trucks in May 2024 as the Dispatch Supervisor for the Parts Department. In this role, I lead our parts delivery team, coordinate daily delivery routes, and help ensure our customers receive their orders accurately and on time.

Q: What are your primary responsibilities?

April: My day-to-day focus is on organizing efficient delivery routes, supporting the drivers on my team, and overseeing the movement of parts from our stores to our customers. I also manage customer enrollment in our new delivery notifications platform, helping ensure everyone who wants updates receives them seamlessly.

Q: You recently played a role in launching the new delivery notification system. Can you share more about that?

April: Yes! I helped with **the implementation of our delivery notifications platform**, which now allows customers to track their orders in real time and estimate arrival times. It's been exciting to roll out a tool that enhances communication and gives customers greater visibility into their deliveries.

Q: What experience prepared you for this position?

April: Before joining Young Trucks, I spent more than 20 years in logistics, managing shipping, routing, inventory alignment, warehouse operations, and customer service. My background includes negotiating with carriers, tracking shipments, resolving delivery issues, and collaborating across departments to improve efficiency. Those experiences really shaped my approach to dispatching—organization, communication, and problem-solving are key.

Q: What do you enjoy most about your work at Young Trucks?

April: I love supporting a team and making sure daily operations run smoothly. It's rewarding to know that our work directly impacts customers and helps keep them moving. Seeing improvements—like the new notification system—come to life and benefit our customers has been especially meaningful.

Q: What motivates you in your role?

April: I enjoy creating structure, improving processes, and finding ways to make things work better for both our drivers and our customers. When the team is set up for success and customers are satisfied, that's a great day for me.

Have You Signed Up to Get Real-Time Parts Delivery Updates?

Young Trucks now offers real-time Parts Delivery Updates straight to your inbox!

By opting in, you'll get instant notifications when your order is on its way or delivered. It's the easiest way to stay informed and keep your operation running smoothly.
